

Len's Light Tractor Relay

The Relay has been organised by farmers Andy and Lynda Eadon who tragically lost their son Len to suicide and is part of a national mental health awareness campaign, Len's Light.

The Relay begins on 20th June in John O' Groats, from where Andy will drive a tractor over 2000 miles through Great Britain (including a stop in Westminster), arriving at Land's End on 20th July. The tractor will feature a specially crafted front box, which will literally light the way.

Getting Involved

Along the length of the epic journey the tractor will visit livestock markets, agricultural shows and machinery depots, and Andy and Lynda would like to meet and talk to as many people as possible to reflect on issues of concern.

The South West Dates, Times and Places

(MD=Market Day M&G=Meet & Greet)
